

Tsukuba Science Café

SCIENTIA

2017

Here we open Science Café called SCIENTIA, the origin of the word "science" in Latin. Science is always leaded by a question -why?-. Your question is the origin of the science. Come to join us with your curiosity to science and share your simple question.

Black tea

1st "Let there be light!"

Date 29th. Sep. 2017 (Fri)

Time 18:15 ~ 21:00

- Workshop / Science Café 90min
- Lab Tour 20min

Participants 30

English Speakers.
(Junior high school students or above.)
*Reservation will be taken on a first-come, first-served basis.

Fee 1000yen / each

- Tea and Snacks
- Return Transportation(Tsukubacenter/KEK)

Place High Energy Accelerator
Research Organization (KEK)

Lecturer

Mr. Shota TAKAHASHI
KEK Public Relations Office, Science
Communicator /Tsukuba Science & Education
Meister

Abstract

The God said, Let there be light: there was light.
The light is everywhere and who cares ? It's too obvious !

Tonight, we will make photodetector by combining a circuit board called a "solderless breadboard" and semiconductor sensors. Shedding various light to the detector tell us which color the light consists of.

*You can take it back home.
Please enjoy yourself!*
